Turning Loss Into Light

UNITED MOTHERS OF LOSS FOUNDATION

Foundation and sponsorship overview

United Mothers of Loss Foundation supports mothers and families after pregnancy and infant loss through practical care, remembrance, free grief resources, peer connection, and Cuddle Cot placements with care facilities. Our wider grief resources and communities welcome people experiencing other forms of loss.

What support makes possible

- Care for grieving mothers. Care packages offer comfort items and written encouragement. The package itself is complimentary; recipients pay shipping after approval. Eligibility and available supplies apply.
- Baby remembrance. Memory boxes give families a dedicated place for treasured keepsakes. These are separate from care packages for mothers.
- Time and connection. Cuddle Cot placements can give families more time with their babies. Free resources and peer communities offer information and compassionate connection.

Community support in action

Christian Financial Credit Union awarded a $500 grant in September 2026 for bereavement care packages serving Wayne County families. Minky Couture contributed blankets in October 2026. These gifts support program delivery; a grant or donated item is recorded separately from a completed delivery to a family.

Choose a practical way to help

Contribute toward care-package supplies and packaging, discuss a Cuddle Cot placement, offer printing or professional skills, or help introduce the Foundation to potential supporters. Please contact us before sending donated items so we can confirm current needs and storage space.

For each sponsorship, we agree on the purpose, budget, responsibilities, feasible timing, and updates. Families’ names, photographs, and stories are shared only with appropriate permission.
